SINGING FOR THE MILLION.—Part II., 4th edition.—Containing numerous Exercises in Imitations, Fugues, and Canons, of Janacani, Fuchs, Albrechtsberger, Hiller, Kittel, Gebhardt, Rink, and Mainzer. Published at 2s. 6d. Price 1s.

SINGING FOR THE MILLION.—Parts I. and II., bound in cloth, 2s. 6d.—"It was the same principle—that of commencing with practice and letting theory follow—which he carried out in his system of 'Singing for the Million.' He argued, that as children learn to speak before they can read or construct language grammatically, so they ought to be taught vocal music in such a way as to introduce the rules of harmony gradually, and prepare them for the manipulation of an instrument, if it is intended they should learn one; while for the great masses of both children and adults, the voice is the best and only instrument, and one that can be trained, with very few exceptions, to take part in choral, if not in solo singing, and at the same time be made a powerful and pleasing agent in moral culture."—*Chambers's Journal.*

New Edition, in paper cover, price 2s.

**MAINZER'S CHORUSES.**—A Collection of Songs for one, two, three, and four voices, adapted for churches, schools, public festivals, or private circles.—"Besides religious compositions, there are others, which refer to the Creator, by calling attention to the beauty and grandeur of his works. Songs, shewing in the few touching lines the wondrous instinct of the sparrow, the ant, the bee, and cultivating a feeling of respect for all nature's children. Besides these, there are songs lending to promote social and domestic virtues—order, cleanliness, humility, contentment, unity, temperance, &c.; thus impressing, not the letter of the law of charity on immature minds, but the spirit of it in the memory, and so identifying them with the very fibres of the heart."

**GUIDE FOR BEGINNERS IN PIANOFORTE PLAYING.** 2s. 6d. This work is entirely different from those of a similar kind, which have chiefly in view the great agility of the fingers, the elegance of performance, and the difficulty of execution; while, on the contrary, the greatest pains have been taken in this work to make it as simple as possible for the understanding even of children, or all those who are unacquainted with the Pianoforte.

**MUSICAL GRAMMAR; SEQUEL TO THE SINGING FOR THE MILLION.**—Containing, with the Principles of Music, the Theory of Chords; of Single and Double Counterpoint; of Imitation; of the Fugue and Canons. Price 1s.; 1s. 6d. bound in cloth. (Published at 3s. 6d.)
